Desired employment

Web Developer

Profile

Enthusiastic self-taught Front-End Web Developer, majored in Economics and Management. I am experienced in online marketing, content management and front-end web development, both working on my one or with a development team. My strongest technical skills are in writing HTML, CSS, JavaScript and creating visual content in Photoshop, some of my projects can be viewed on my portfolio page. Seeking a full-time job as web developer where my experience, skills and education will advance organizational goals and objectives.
